NATIONAL
NODE

RDA in Norway – a national Research Data Alliance node

What is a national node?

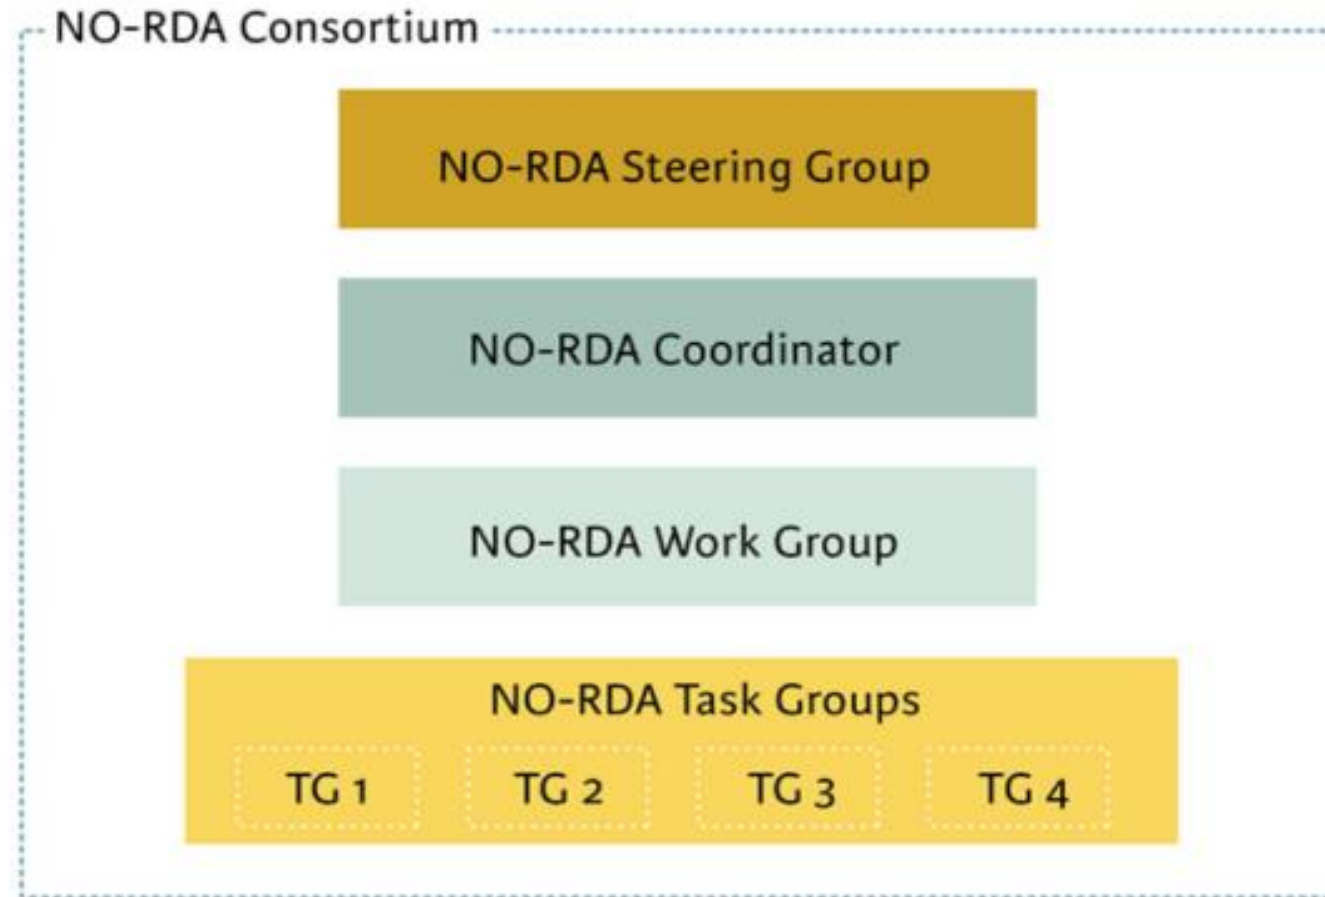

The establishment of a national node provides an arena where key national stakeholders can strengthen cooperation around Open Science, FAIRness and sharing of research data, while being updated on international developments.

What is RDA Norway?

Initiating members:

- *UiO*
- *UiB*
- *NTNU*
- *UiT*
- *Unit*
- *NSD*
- *Sigma2*

Current members:

- *UiO*
- *UiB*
- *NTNU*
- *UiT*
- *Sikt*
- *Sigma2*
- *USN*
- *UiS*
- *NIFU*
- *(Hk-dir)*

What is RDA Norway?

RDA NO will focus on [...] areas of strategic importance for the Nordic region, such as **Data Management Planning**, **FAIR Data Stewardship** and **management and sharing of sensitive data** in research within relevant ethical and legal frameworks.

Key activities 2022

Training and Outreach

- Collaboration during Open Access Week

- Planning the co-event in Gothenburg in connection with the RDA Plenary and the 10-year anniversary of RDA

Key activities 2022

Task groups and networking initiatives

- Competence framework for research data support
- Curator network for FAIR research data
- Terminology list for RDM

Planned activities 2023

- Establishing a "Data champions" task group (led by UiO)
- Establish a task on Data Protection and Sensitive Data
- Continue work on establishing a curator network.
- New iteration of the RDM terminology list (broadened scope).

Streaming of RDA Norway event "Implementing cultural and structural change" March 20

by Ane Møller Gabrielsen

The RDA Norway networking event in Gothenburg March 20 will be possible to follow online. The event is a co-located national networking event in connection with the RDA Plenary in Gothenburg. The goal of the event is to strengthen the RDA Norway network through knowledge exchange, and to spread awareness about RDA activities and outputs among data stewards and other national stakeholders.
