# The DocEnhance Data Stewardship Course

Comprehensive course on research data management (RDM)

tailored to the needs of PhD students

covering all relevant aspects of RDM

consisting of three modules

developed by RDM-experts at UiT

# The three modules

The screenshot displays the DocEnhance user interface. On the left is a dark blue sidebar with navigation options: Dashboard, Site home, Calendar, Certificates, Private files, and My courses. The main content area is titled 'PhD Supervision' and shows a 'Course overview' section. This section includes a filter dropdown set to 'All (except removed from view)', a sorting dropdown set to 'Course name', and a view toggle set to 'Card'. Three course cards are visible, each featuring an illustration of people in a meeting. The cards are titled: 'Open Course Data Stewardship – Module 1: MOOC', 'Open Course Data Stewardship – Module 2: Seminar assignments', and 'Open Course Data Stewardship – Module 3: Knowledge into ...'. At the bottom of the page, there is a 'Stay in touch' section with the DocEnhance logo and social media icons for Twitter and LinkedIn. A footer bar contains 'Accessibility settings' and a 'List of active policies' link.

# The three modules

**Module 1:** a MOOC providing all necessary background knowledge on RDM.

Students need to pass a test at the end of M1 to be accepted into M2 & M3.

**Module 2:** an interactive classroom course in six parts where participants internalize and deepen their knowledge through group work and discussions.

**Module 3:** students work on real cases with partners from the non-academic sector.

# How it went...

1. We launched M1 (MOOC) with a digital kick-off event. 18 participants.
2. Following the exam for M1, 12 students participated in three days of group workshops and discussions in M2.
3. M3 started on the day after M2 was completed with three groups having meetings with our non-academic partners. 10 participants.

Upon successful completion of all assignments, students received a diploma with which they could apply for 3 ECTS at their respective faculties.

# Some of the feedback we received...

“Thank you very much for offering the DocEnhance Data Stewardship course. I have learned many new things from this course.”

“I've really enjoyed learning and practicing data management.”

“It provided me with a lot of useful information and tools for my research!”

“Well, it is no secret that I liked the course very much, so I filled out the evaluation survey.”
