> Dear Colleagues,
>
> Thank you for agreeing to participate in the 2015 IASSIST Conference with the goal of
> introducing RDA to a new community. George Alter and I have been talking with Larry Lannom
> about how to organize the sessions and how to fund your participation. Here are the two sessions
> currently envisioned:
>
> Session 1
> First Products of the Research Data Alliance (RDA): Foundations
>
> Chair: Mary Vardigan
>
> Data Foundation and Terminology -- Gary Berg-Cross
> Data Type Registries -- Larry Lannom or Daan Broeder or Giridhar Manepalli
> Practical Policies -- Rainer Stotzka
> Metadata Standards Directory -- Jane Greenberg or Rebecca Koskela or Alex Ball
>
> Session 2
> First Products of the Research Data Alliance (RDA): Integration and Sustainability
>
> Chair: George Alter
>
> Data Fabric -- Gary Berg-Cross
> Dynamic Data Citation -- Andreas Rauber or Ari Asmi
> Data Publication, Cost Recovery for Data Centres -- Ingrid Dillo
> DSA-WDS Basic Certification for Repositories -- Mary Vardigan

We need a few things from you at this point:

- First, we need to know who will be presenting from your working group if you have not yet decided (this applies to Data Type Registries, Metadata Standards Directory, and Dynamic Data Citation)
- Second, we need to know whether you need funding and if so, how much in the form of an estimate. Funding should not be a problem for the U.S. participants, but European funding may be trickier and may depend on the timing of the next award to RDA/EU. Larry is checking with Peter Wittenburg about the European funding and we will get back to you soon about that.
- Third, we need a brief abstract for your presentation

Please respond as soon as you can about the presenter and funding requests. Abstracts are due on Friday, November 14.

Thank you again!

Mary
